

Batteries BTL block 12V

Advantages of BTL batteries:

- Design life of 10 years at 20° C
- Absolutely maintenance free.
- Cycle resistant
more than 500 charging-/discharging cycles up to 50% DOD
- Excellent high current capability
- High recombination in cycle activity
- Works independent of position
- Classified as non-dangerous according to IATA
- Robust construction

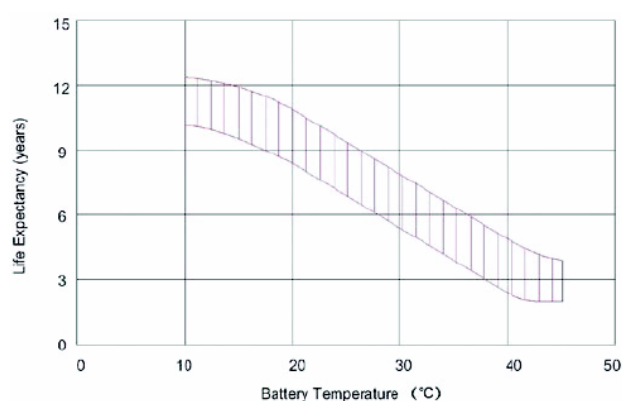

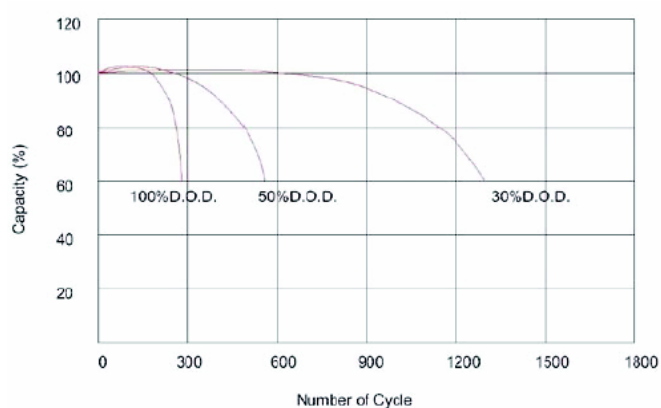

Applications:

- Uninterruptible Power Supply (UPS)
- Photovoltaic systems
- Telecommunication systems
- Emergency lighting systems
- Fire protection and safety systems
- Medical equipment
- Robust construction

Batteries BTL block 12V

Specifications

Type	Voltage	Capacity Ah (C-20)	L [mm]	W [mm]	H [mm]	Weight [kg]
BTL 12-33	12	33	195	130	180	10.2
BTL 12-45	12	45	198	166	170	13.8
BTL 12-55	12	55	229	138	235	18
BTL 12-60	12	60	260	169	235	24
BTL 12-65	12	65	350	167	183	22.2
BTL 12-75	12	75	260	169	235	24
BTL 12-80	12	80	350	167	183	24
BTL 12-100	12	100	320	172	227	32
BTL 12-120	12	120	407	177	227	38
BTL 12-150	12	150	483	170	240	47
BTL 12-200	12	200	522	240	240	65
